About the Department of Geography

The Department of Geography started its journey since 2012 with PG course and after six years this Department has introduced M.Phil. and Ph.D courses successfully. Few M.Phil and Ph.D scholars have already received their degrees. Along with theoretical knowledge dissemination, this department provide careful emphasis on building expertise on the remote sensing data handling and applications of geographical information system for addressing different geo-environmental problems. Application of this techniques in the recent geographical space has got due priority and this department is also a part of this trend. At present five faculties are working in this department under the leadership of Dr. Pradip Chouhan (HoD).

About the Workshop

Main objective of this workshop is to cater knowledge support to the faculties and research scholars who are interested to learn QGIS. In social science most of phenomena are the function of several factors and the role of those factors may vary over space and time. Therefore, for monitoring the phenomena is essential and for this multi-parametric analysis with the aid of GIS has become indispensable. Present workshop is an attempt to provide basic theoretical knowledge and practical understanding of QGIS. Different universities including UGB have introduced QGIS in their undergraduate course. Faculty members of the colleges under UGB and others can get a scope to learn this software.

Who should attend the course

Research scholars and college and university faculty members can only participate in this workshop. Total intake capacity in this course is Forty (40). Faculty members of the colleges under UGB will be given priority. In case of applicant more than 40, organizing committee may decide to give chance to any one or two faculties

instead of all. Basis of selection will be decided by the organizing committee.
